

# Ensure your humidity & temperature devices are calibrated with the highest confidence

Delivering unmatched precision and traceability, our humidity calibration services utilize the NIST-proven two-pressure method to ensure your instruments are calibrated to the highest standards.

Device Types Supported

Humidity Sensors & Probes

Hygrometers

Data Loggers

Hygrothermographs

Environmental Monitoring Systems

## Thunder Scientific Model 2500

### Ideal for:

Aerospace & Defense

Pharmaceutical & Biotech

Semiconductor & Electronics

Calibration Laboratories

Research & Academic Institutions

Fast Turnaround

Precision Calibration

Expert Support

ISO/IEC 17025-aligned Practices

**CANTON**  
MICHIGAN

**CHARLESTON**  
SOUTH CAROLINA

**DANVILLE**  
VIRGINIA

**FAIRFIELD**  
OHIO

**GREER**  
SOUTH CAROLINA

**RALEIGH**  
NORTH CAROLINA

## HUMIDITY CALIBRATION SERVICES

Powered by the Thunder Scientific Model 2500 – the industry's most trusted generator.

### Key Features

- $\pm 0.5\%$  RH Uncertainty
- NIST-Traceable Process
- Temperature-Controlled Chamber
- Fully Automated Calibration Cycles
- Supports Sensors, Hygrometers, Loggers & More
